### MEDENUS GAS REGULATORS

Flowstar is an authorised UK distributor of MEDENUS gas pressure regulators, safety shut-off valves, and combined regulator and shut-off units.

Manufactured in Germany, the range is available with threaded and flanged connections from DN25 to DN200. Depending on the model, MEDENUS products can accommodate inlet pressures up to 16 bar, with outlet pressure ranges from 8 mbar to 3 bar.

Suitable for natural gas, biomethane, hydrogen and other neutral gases, MEDENUS products provide accurate pressure control and reliable protection for industrial and commercial gas systems. Contact Flowstar to discuss your application and obtain a quotation tailored to your requirements.

### AIRSWEEP FLOW AID SYSTEMS

AirSweep has long been part of Flowstar's trusted range of flow-assurance products, helping customers keep even the most difficult materials moving smoothly. Using powerful, high-pressure 360-degree air pulses, AirSweep breaks the friction between vessel walls and material, eliminating common issues such as bridging, ratholing, arching, and build-up. Its unique sweeping action can even flush vessels completely clean, reducing downtime and improving process reliability.

To learn more about how AirSweep can enhance your material handling systems, contact the Flowstar team on +44 (0)1482 601030 or email [sales@flowstar.co.uk](mailto:sales@flowstar.co.uk).

### EMERSON NEXT DAY DELIVERY

Flowstar understands the importance of having reliable and high-quality components readily available for your projects. That's why we're proud to offer a comprehensive range of Emerson relief, safety relief and reducing valves, all available for next day delivery.

Emerson valves are renowned for their durability, precision, and performance. Whether you need them for industrial applications, or any other critical systems, Emerson valves provide the reliability and efficiency you require. We can supply the complete range of Emerson valves including the Bailey 480, 707, 716, 716T, 746, Class T and G4. Contact us on +44 (0)1482 601030 or email [sales@flowstar.co.uk](mailto:sales@flowstar.co.uk) for any of your Emerson valve requirements.
