

## FLOWSTAR NEWSLETTER - JAN 2026

### NIEZGODKA VALVES IN STOCK

Flowstar is the exclusive distributor of the Niezgodka valve range in the UK & Ireland, holding extensive stock across their key product lines. This includes relief valves, safety relief valves and open discharge valves, such as the Type 1, Type 10, Type 19 and Type 66. We also supply additional products from their portfolio, including reducing valves (Type 70 series), sustaining valves (Type 80 series) and vacuum relief valves (Type 90 series).

Niezgodka valves are used across a broad spectrum of industries, including petrochemical, food technology, pharmaceutical, natural gas and oil production, marine engineering, power generation and hydrogen refuelling. Their robust construction and precise performance make them suitable for demanding process environments where reliability, safety and long service life are essential.

### NEXT DAY BESA VALVE DELIVERY

BESA safety valves are engineered for reliable overpressure protection on systems handling gases and liquids, all manufactured in line with European directives. Their long heritage in valve design makes them a trusted choice for safeguarding pipelines, plant equipment, and process installations across multiple industries.

Flowstar stocks the BESA Type 131 and 241 safety valves in both cast iron and carbon steel, with sizes from  $\frac{3}{4}$ " to 4" and set pressures up to 40barg. All stocked models are available for next working day delivery across mainland UK and thanks to our close partnership with BESA, we can also supply their full product range on request.

### YOUR TRUSTED BERLUTO SUPPLIER

Berluto's pressure reducing valves are trusted across industry for controlling pressure on a wide range of media, including water, seawater, air and neutral gases. Built in Germany from red bronze, brass, and stainless steel, they're designed for long term reliability in demanding systems.

Flowstar holds an extensive range of Berluto reducing valves in stock for next day delivery, including the bronze DRV225, DRV226, DRV303, DRV350, and DRV578 as well as the stainless steel DRV725, DRV778 and DRV878. Sizes run from 1/2" to 4" with screwed or flanged connections, and additional models, sizes, and connection types are available on request.

WE SPECIALISE IN SAFETY VALVES, REDUCING VALVES, SUSTAINING VALVES, INDUSTRIAL VALVES, ANCILLARY VALVES & VALVE REPAIRS
